

A Sempra Energy utility®

Energy-Efficient Foodservice Rebates

Choosing the right appliances can help generate cost savings for your food service facility without sacrificing performance. SDG&E's energy-efficiency rebates can help you outfit your kitchen with more efficient equipment, which can improve your bottom line!

Managing Your Energy Use

SDG&E® has programs and services to help your business get more out of the energy that you use. Information on everything from seminars to online energy analysis tools, rebates and other financial incentives can be found 24 hours a day, seven days a week at www.sdge.com/business.

Helping businesses manage their energy use is one of the ways SDG&E is committed to providing exceptional customer service.

Please note: Program participation is based on energy consumption per qualifying meter. See the applicable rebate form for a complete listing of requirements and eligibility.

These programs are funded by California utility customers and administrated by SDG&E under the auspices of the California Public Utilities Commission. These programs may be modified or terminated without prior written notice and are provided to qualified customers on a first-come, first-served basis until program funds are no longer available. The selection, purchase and ownership of goods and services are the sole responsibility of the customer. SDG&E makes no representations as to the safety, reliability and/or efficiency of the goods and services selected. SDG&E makes no warranty, express or implied, including warranty of merchantability or fitness for any particular purpose, use or application, with respect to selected goods and services.
