EZ Fit Smart Bowls

US Patent #9,918,571

The Bon Chef Smart Bowl System was specifically designed to fit all NSF-7 & Non NSF-7 Mechanical cold well manufacturers including standard & custom wells using our specialized support bars without the use of an under-shelf.

In order to maintain a NSF food temperature of 41°F, the Smart Bowls should be used in an NSF- 7 Mechanical Cold Wells. Smart Bowls must be pre-chilled in refrigerator for a minimum of two (2) hours and then filled with pre-chilled food (38°F or colder) just prior to set up.

Smart Bowls can be used with Non NSF-7 Wells and many times the proper temperature can be achieved, however, Bon Chef makes no claim on maintaining food temperatures for Non NSF-7 wells.

NSF APPROVED IN 27 DIFFERENT COLORS

Allergen Lavender, Black, Black Speckled, Calypso Green, Caramel, Dark Blue, Dusty Rose, Fiesta Gold Revision, Ginger, Harvest Gold, Teal, Terra Cotta, Cabernet, Matte White

Hunter Green, Ivory, Ivory Speckled, Pewter-Glo, Platinum Gray, Plum, Red, Smoke Gray, Tan, Tangerine Revision, White, Slate, Chestnut
