Notes & Details

Provide a handwashing station at your food truck, outdoor catering event, or festival with this Regency portable hand sink cart! This sleek, space-efficient cart is made of durable stainless steel with an 18-gauge, type 304 cabinet body. It includes a soap, sanitizer, and paper towel dispenser to serve as a proper sanitation station. It features a 5 gallon removable fresh water tank and a 7.5 gallon removable waste water tank for self-contained operation.

This cart includes a deck-mounted faucet with a durable chrome-plated brass body and ceramic cartridges. The cartridges feature a lower fail rate and a watertight seal to require less replacements. Its 8" long swivel gooseneck spout provides a sleek look with plenty of clearance, while a 1.2 GPM aerator provides a soft flow pattern with minimal splashing. This faucet boasts a set of 4" adjustable centers, and its deck-mounted design is easy to install with 1/2" male NPS inlets. The sturdy lever handle makes it easy to turn the water flow on and off.

Designed to supply only cold water, this unit saves on electricity and requires less maintenance than comparable models with a water heater. It features a lockable swing door with a key to securely store backup supplies and prevent unauthorized access. The paper towel dispenser accommodates both M-fold and C-fold paper towels (sold separately) for added versatility.
