

NOBLE CHEMICAL REFLECT GLASS CLEANER

FOR USE ON:

Windows
Stainless steel
Aluminum
Showcases
Chandeliers
Plexiglas
Mirrors
Windshields
Chrome

DESCRIPTION:

Refresh quickly penetrates and removes dust, grease, grime, smoke, and other residue found on windows, mirrors, and more! A blend of surfactants, sequestering agents, and solvent alcohols, this formula wipes clean with no residue or streaks.

DIRECTIONS:

For use on all glass surfaces indoors and outdoors. Just apply a fine mist to the surface with an atomizing sprayer, then dry and polish with a soft, lint-free cloth. Best results can be obtained by using a separate cloth for drying and polishing.

About the Formula: This cleaner is made with de-ionized water, which lacks traces of metals found in usual tap water. Very similar to distilled water, it is purified and will not have chemical reactions with other organic or chemical compounds found in the soiled items you use Reflect on. Because it is pure, you can be assured that Reflect will not leave any streaks or residue after use. De-ionized water is also used by many car washes, cosmetic companies, and chemists, who use it for cleaning glassware used in experiments.
