

# Heinz Gluten-Free Products Around the World

The products on this list are made without gluten containing ingredients. Due to the various degrees of sensitivity in individuals with gluten intolerance and celiac disease this list is only a reference for Heinz products as they are sold. Regulation of the term gluten-free varies by country therefore cannot be claimed for similar products sold in different locations.

\*Product formulations can change so consumers should carefully read product labels to ensure that their favorite Heinz products remain gluten free.
