Walls  
Sinks  
Urinals  
Kitchens  
Fountains  
Tile  
Grout  
Shower stalls  
Countertops  
Swimming pools  
Chrome

### DESCRIPTION:

Noble Chemical Scum-B-Gone is a non-acidic, multipurpose cleaner without abrasives. Ideal for all restroom and shower surfaces or fixtures, this product easily removes soap scum, hard water deposits, grime, and any other organic residues while leaving behind a delightful rose scent! Safe for use on any surface not harmed by water, Scum-B-Gone is concentrated and non-fuming.

### DIRECTIONS :

Light cleaning - 1:40 ratio (3 oz. per gallon of water)  
General cleaning - 1:30 ratio (4 oz. per gallon of water)  
Heavy duty cleaning: 1:20 ratio (6 oz. per gallon of water)

These measurements are flexible rather than specific, and in many cases a more or less dilute solution may be used depending on the severity of the conditions.

Apply solution freely to the surface with a clean mop, sponge, or sprayer and allow it to stand for at least 5 minutes or more, depending on soil condition. After the soil is loosened, wipe or pick up the solution and rinse with clean water. For heavy soil, you may wish to agitate the area with a scrub brush or floor machine to improve cleaning time and performance.

AS A MOPPING SOLUTION ADDITIVE: Add 1 to 2 ounces of concentrate per gallon of rinse water and rinse in the usual manner. Waxed or finished floors will be noticeably cleaner and produce more gloss. This product will also effectively remove ice melt residue.

AFTER-STRIPPING CONDITIONER: Dilute 1 ounce of concentrate per gallon of water and mop onto the floor. Pick up solution with a wet/dry vac or mop, then allow floor to dry before applying finish.

*This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by state and federal regulations.*
