DESCRIPTION:

This restoring floor finish removes all black heel marks and dirt, creating a brilliant shine that actually enhances the gloss of your original finish. You'll save time and money by reducing the need to re-coat as frequently, and will be able to go longer between each full stripping.

DIRECTIONS:

Remove all tar, gum, and excess soil from the floor. Spray a fine mist of concentrate onto the floor just prior to buffing. DO NOT OVERWET. Use a spray buff pad and buff to a high shine. Turn pad over or replace as necessary.
