SWEETNESS
FROM NATURE®

Cut the Calories, Not the Taste!

The leaves of the Stevia rebaudiana plant have been used as an organic sweetener for hundreds of years. Besides being a 100% all-natural sugar substitute, this South American herb is excellent for diabetics and the carb-conscious due to its negligible effects on blood glucose levels, and its lack of virtually all carbohydrates. Stevia is sold in 1 gram packets (80 or 1000 packets/CS) or 10 oz. bags (6/CS) and offers a sweet, refreshing taste with the added benefit of being a zero calorie option! ***Be sure to reap the benefits of pure Stevia, the 100% organic sweetener, today!***

- **NO** Calories!
- **NO** Artificial Sweeteners!
- **NO** Maltodextrin!
