

VACMASTER® PRO260

The **VacMaster® PRO260** blends commercial quality with versatility, making it perfect for everyday kitchen use! The PRO260 offers a duality not found in other vacuum packaging machines. This machine allows you to control your own settings, offering a more customized vacuum packaging experience, with a "Pulse" option for vacuuming delicate items and a "Seal Now" option for additional control. The PRO260 also offers automated settings for one-button, hands-free operation in both vacuum packaging and marinating. With the automatic marinating option, you can have first-class food in your own kitchen! In addition, the PRO260 features a roll holding/dispensing system that holds both an 8" and 11½" roll with a two-way built-in cutter. This machine takes convenience to a new level and makes vacuum packaging enjoyable! The PRO260 accepts bags and rolls up to 12" wide.

Features:

- One button, hands-free operation
- Full and wide 12" seal bar
- Digital technology
