

TEA BREWER

8740

8740 Three & Five
Gallon Automatic Tea
Brewer

8740
with optional 8802

Bloomfield's Automatic Tea Brewer is designed for ease of operation and service with technician-free installation and start-up. It provides an economic and foolproof way to brew perfect tea, each and every time.

Features

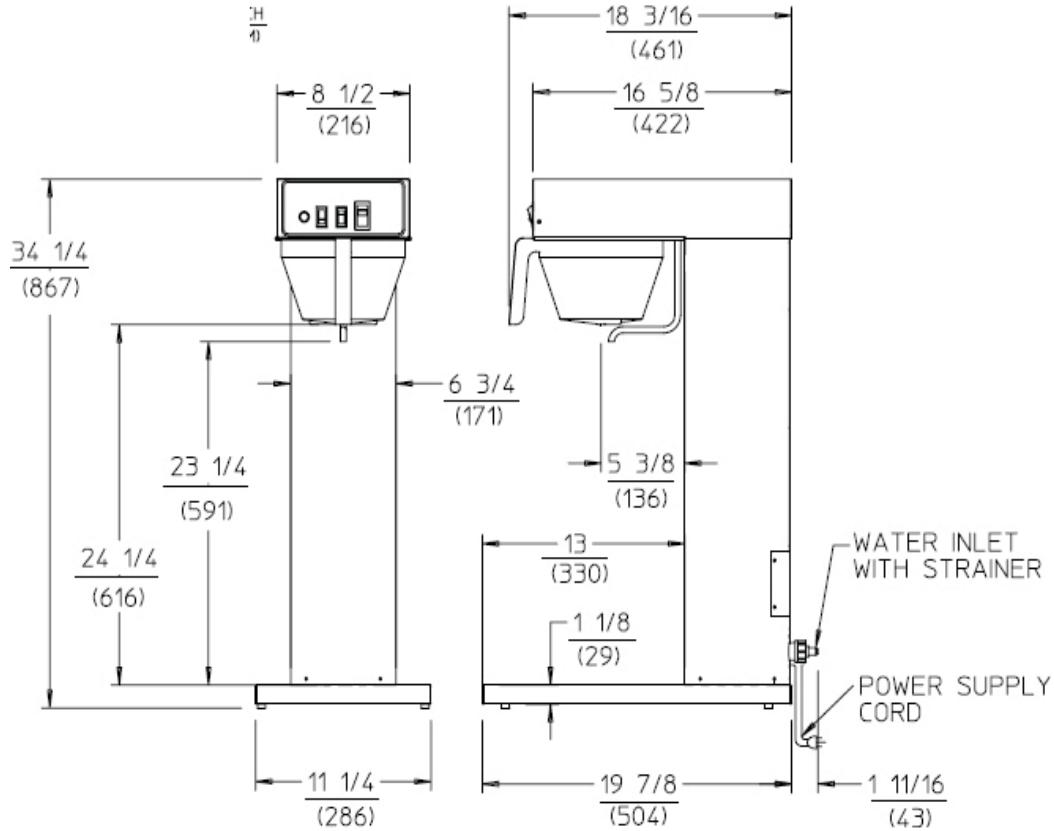

- The 8740 provides 3 and 5 gallon capacity for economical loose leaf or pillow pack brewing.
- The external bypass system blends the diverted cold water immediately with the tea concentrate from the brew chamber.
- Ready-to-Brew light indicates the proper water temperature to help eliminate the guesswork in brewing.
- Superior sprayhead design spreads water over the tea leaves, creating agitation and a floating action that completely saturates the tea leaves to capture the full, rich essence.
- New Hi-Temp Brew Chamber with integrated grid allows viewing of brew process.
- Rugged base assures stability and strength, and provides easy placement of tea dispenser.
- Convenient tank heater on/off switch provides energy savings options.
- Exclusive design provides easy access to components for quick service.
- A high level of commonality of part with other Bloomfield models will significantly reduce the inventory of spare parts required to service.
- Premium quality thermostat has a full-length sensing bulb that recognizes water temperature accurately and cycles less frequently.
- Volume and Temperature adjustments can be made with ease, no panels to remove or tools required.
- Unique water valve with built-in flow control and strainer assures consistent operation at 20 - 90 p.s.i.
- High-quality, easy-to-clean stainless steel construction.
- One-piece drawn stainless steel water tank has a superior design for extended life.

Accessories

Bloomfield offers a full line of tea dispensers.
