- Cleaning brush removes dried dough

Includes

- Six interchangeable pasta plates
- Storage case for pasta plates
- Cleaning brush
- Combination pusher and wrench

FOR THE WAY IT'S MADE.®

KitchenAid® Pasta Press Attachment

KPEXTA

Exceptional Performance

Pasta Press Attachment

The attachment self-feeds dough into the hopper and through the pasta plates. When the pasta reaches the desired length, slide the cutter across the plate to detach each series of noodles.

Six Pasta Plates

Six interchangeable pasta making plates create fresh spaghetti, bucatini, rigatoni, fusilli and small or large macaroni.

Versatile Use

KitchenAid® stand mixer attachments fit all tilt-head and bowl-lift stand mixers.

Enduring Design

Easy Assembly

Assemble the pasta press attachment by inserting the auger into the press housing, placing one of the pasta plates over the opening, and tightening the pasta ring over the plate. Attach the cutter by inserting it into the socket on the side of the housing, and the pasta press is ready to use.

Easy Cleanup

A cleaning brush is provided to easily remove bits of pasta dough from the pasta press and pasta plates. The auger, pasta ring, combo tool, and storage case are dishwasher safe.

Storage Case

The storage case holds five pasta plates and fits on top of the pasta press attachment for convenient storage.
