# Super Pan® Super Shapes

A cost effective method to upscale the presentation of food in chafers, heated or refrigerated buffet lines, display cases, and more. By using your existing inventory of steam table pans, and replacing a few pieces of the line-up with the Super Shapes pans, your whole line-up gets an upscale presentation. Super Shape steam table pans are built to look great and hold up to the most demanding commercial kitchen environments. Patented and patents pending.

## Super Shapes Features:

- Upscale food presentation with minimal investment
- Shapes provide dramatic presentation with portions that offer better food quality and reduced food waste
- No investment in templates, tiles or other accessories required
- Easy to use and easy to change
- Full- and Half-size units fit with Super Pan 3® covers and flexible lids
- Reinforced edges and corners reduce potential for dents, dings, or energy escaping from the well
- Pans stack neatly within themselves for easy storage
- 300 series stainless provides great durability, cleanability and thermal transfer
- 22 gauge pan for durability

# Super Pan® Super Shapes Line-up

See the difference for yourself.

Pans stack for easy storage.

Give your buffet a makeover.

Use two 3100320, one 3100321 1/3 inner/outer Wild Pans in a chafin and dress it up while offering three separate dishes!

Use two each 3100020 or 3100220 Wild Pans in a chafin and dress it up while offering two separate dishes!
