MECHANICAL SWEEPERS

**DESIGNED FOR
QUICK, CONVENIENT
UNPLANNED
CLEANING.**

The Oreck Commercial line of rechargeable and mechanical sweepers enables staff to efficiently and unobtrusively clean small area, high traffic (SmAHT™) floors during operating hours. Great on hard-to-pick-up debris such as crumbs, dirt and spilled food in hard-to-reach spaces. Sweepers work on many floor types: low pile carpets, tile, linoleum, and hardwood. Rotoblade™ rubber blades provide superior agitation and can be removed and rinsed under running water. Low profile cleaning head reaches under most furniture and cleans close to baseboards. Easy-glide, rubberized wheels will not damage flooring.

FOR USE IN: Property Management, Hospitality, Healthcare, Food Service, Education, Government and Retail

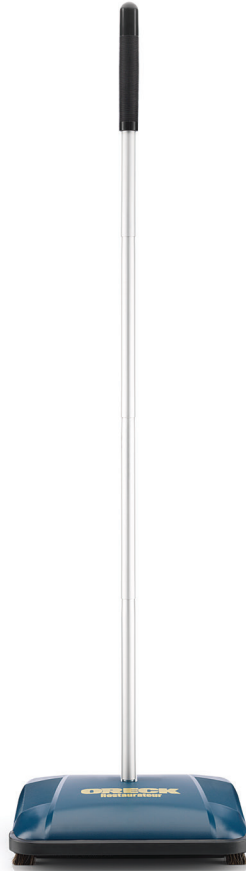

CK20110
