Date Code Explanations

Primary Date Code - Always present on bottle and case

Example: A1204

Letter A = Batch Code; Next 3 digits = Day of Year; Last Digit = Last number of current year + 1

Therefore, the Example Batch was the first batch of the day of the 120th day of the year 2003.

Best Before Dating - Present on the bottles and cases of designated items

Example: BBE 09/2010

BBE = Best Before End; First 2 Digits = Month; Last 4 Digits = 4 digit Year

Therefore, the Example Batch is best if used before the end of September 2010
