

FX210 Cake Scale

Free-standing cake scale

Take a slice out of expenses. On average, 3 ounces of excess icing are applied to each bakery cake. That adds up. With the FX210 you monitor ingredient usage and increase profits.

- ◆ Ideal for general weighing applications.
- ◆ Portability with optional battery power. Up to 800 hours* of continuous operation without replacing batteries.
- ◆ Highly visible front and rear LCD displays prominently display weights.
- ◆ Capacity: 30 lbs x .1 oz.

*Subject to the quality of batteries used and FX 210 specification.

Free-standing cake scale

Tough enough to withstand everyday professional use, the FX 210 is a free-standing scale, ideal for monitoring ingredient usage.

The cost cutting advantages of monitoring ingredients become clear when you consider the following: The average cake has an excess of 3 ounces of icing at a cost of 14.1 cents. A bakery production average of 250 cakes per week uses nearly 47 pounds of excess icing, costing the bakery \$35.25. Annually, these costs add up to \$1,833. Most customers recover the cost of the scale in less than six months.

The FX210 makes observing weights quick and easy with its user friendly design and highly visible front and rear displays. A battery option is available to make the the FX 210 portable with up to 800 hours* of continuous operation.

*Subject to the quality of batteries used and FX 210 specification.

Rear LCD display.

Features

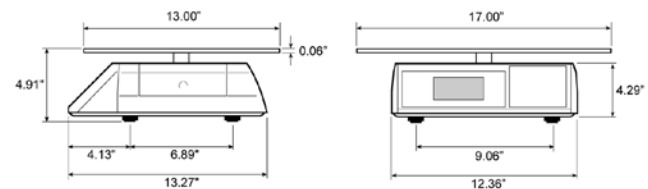

- ◆ **Gross and net simultaneous weight display**
- ◆ **Optional remote footswitch available**
- ◆ **Worldwide service coverage**

Specifications

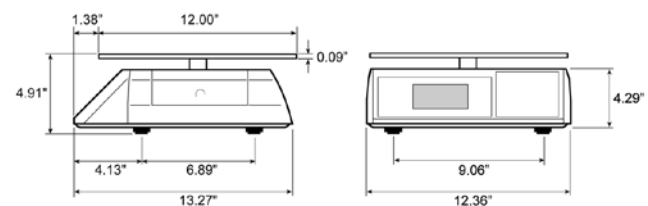

- ◆ **Platter Options**
13" x 17" rectangular rotating platter
12" round rotating platter
- ◆ **Capacity**
30 lbs x .1 oz
- ◆ **Power options**
AC adapter or 6 "D" cell batteries
- ◆ **Not legal for trade**

Dimensions

- ◆ **Sheet Cake Model**

- ◆ **Round Cake Model**
