This two door glass door merchandiser is the perfect way to increase impulse sales at your convenience store, market, or deli. The merchandiser's clear glass doors draw attention to tempting grab and go items like canned or bottled drinks, pre-wrapped sandwiches, or take out items like pre-packaged salads. It has a temperature range of 32° to 50° Fahrenheit.

Eight plastic coated steel shelves are included. Adjustable mounting brackets give you complete control over the merchandiser's shelving configuration, to accommodate a variety of different sized products.

The merchandiser's bottom mounted, 1/2 hp compressor uses R134a refrigerant. Foamed in place polyurethane cell insulation helps maintain interior temperatures. A top mounted cooling fan circulates air quickly throughout the merchandiser, regulating the internal temperature even when the refrigerator's self-closing doors are opened.

The double door glass door merchandising refrigerator has a 120V, 11.8 amp, 60 Hz. electrical rating, and is ETL Sanitation Listed and NSF Compliant.
