**Hamilton Beach**  
COMMERCIAL

Variable Speed Motor powers through the toughest loads at a constant velocity

**Tilt-Back Head** lifts for quick and easy attachment changes and bowl removal. This unique feature eliminates the need to put your hand in the mixture to change attachments or remove the bowl. Also, the tilt-back head makes adding ingredients and scraping the sides of the bowl much easier.

**Heavy-Duty Attachments** are made of stainless steel for durability

**7 Quart Stainless Steel Bowl**

All Metal Gears vary speed and torque for superb durability

**On Button** is recessed to prevent accidental activation

**Safety Cut-off** stops mixer immediately when the head is raised

**Overload Protection** to help prevent overheating
