

GLO-RAY® PORTABLE FOODWARMERS

Models GR-B, GRFF, GRFFL, GRFFB, GRFFBL GRFFC-18, GRFFCL-18, GRFFBC-18, GRFFBCL-18

Hatco Glo-Ray Portable Foodwarmers keep food hot at kitchen work areas, waitress pickup stations or customer serving points. Available in models and sizes to meet every food warming need.

FLEXIBILITY

GR-B features a preset automatic thermostat to maintain proper base temperatures. Shipped with chrome pan rail and 6' (183 cm) cord and plug, ready to use.

GRFF has a specially designed stand that keeps food holding pans off the work area and allows easy access from three sides. The air space between pan bottom and counter top serves as an effective insulation to prolong serving life.

GRFFB has a preset base that conducts heat from the bottom while an infrared element heats from above. A swing-away top provides fast and easy access to food pans. The GRFFB is available with a clearance of 12", 14" or 16" (31, 36 or 41 cm) between heated base and upper housing. Includes chrome pan rail and 6' (183 cm) cord with plug.

GRFFC & GRFFBC, perfect for fry stations, are designed with a greater distance between the heating element and the holding pan than the standard foodwarmer model GRFF. The distance, combined with the compact element housing, makes it easier to access the product while maintaining proper food temperatures. The special ceramic element emits radiant heat that blankets the target surface and food product. These models come with a 6' (183 cm) cord and plug attached.

Hatco can custom design portable foodwarmers to meet customer specifications or to fit an unusual situation. A wide selection of accessories including food pans, trivets, coated shatter-resistant incandescent lights and controls make Glo-Ray foodwarmers ideal for any location.

QUALITY

The following features assure the finest performance for years to come:

- Models available with heat above the food, below the food or both.
- All models are factory pre-wired with a 6' (183 cm) cord and plug.
- Available with metal sheathed or ceramic elements.
- Optional incandescent lights available to enhance food appeal.

Model GRFFL with optional 9"W x 5 1/2"H (23 x 14 cm) display sign holder (sign not included), Designer color and accessory food pan

Model GRFFBL with accessory half-size food pans and wire trivets

Model GR-B Heated Base

Models GRFF and GRFFC with optional Designer colors, accessory food pans and hardcoated fry ribbons

METAL SHEATHED HEATING ELEMENTS GUARANTEED AGAINST BURNOUT AND BREAKAGE FOR TWO YEARS, CERAMIC ELEMENTS FOR ONE YEAR.
