

PRO'S PICK®

Solar Salt

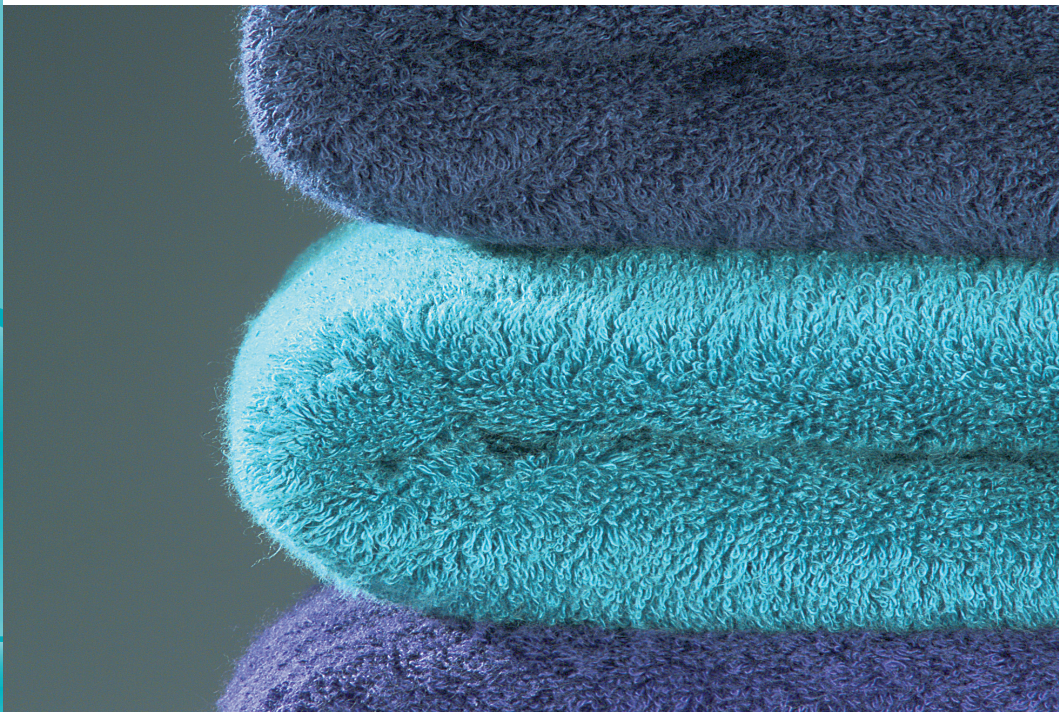

High Purity Solar Softener Salt

Pro's Pick® Solar Salt

Our high purity water softener salt contains up to 99.6% pure salt. Evaporated naturally by the sun and wind, these solar crystals have a white, opaque appearance and a low insoluble content. They are also formulated to resist mushing and bridging, minimizing the accumulation of brine tank residue.

Offered exclusively to dealers, this product is NSF-certified to ensure premium quality. It is recommended for use in all side-by-side water conditioners. And now, our poly bags are made with 50% recycled material!

Pro's Pick® Solar Salt
