

The Performance Series Uprights

Big performance in a small package.

128G-Carpet & Rug Institute Green Label Approved

Spare onboard poly belt

128DC-Easy to empty dirt cup

Pigtail electrical cord for easy replacement

Variable height settings

No tools required access to sturdy Lexan fan

128G

128DC

If you have been searching for performance from your vacuum, try Pacific's Performance series upright vacuums. All units feature 12" cleaning paths, internal, automatic On/Off switches, 50' electrical cords, easy, no-tools-required fan access, poly belt and the option of either dirt cup or bagged recovery.

The CRI Green Label Approved versions contain

HEPA filtrated, paper bags for use in the most stringent environments. The dirt cup versions feature an easy to use, dual latch system that makes the removal and installation of the dirt cup a breeze.

The latest single-motor uprights from Pacific combine high performance and lightweight design for today's cleaning professionals.
