**Double  
Specialty  
Warmers**

## ***Double Well Warmers Versatile Performers***

### **Performance Features**

These durable double well warmers feature easy clean stainless steel heat wells that resist corrosion and provide years of dependable service. Each well has a powerful 500 watt wrap around heating element that provides excellent performance for any food service operation. An adjustable thermostat provides the proper serving temperature for a wide variety of products.

### **Construction**

Star's specialty warmers keep their good looks for years with a corrosion resistant stainless steel body. An attractive vinyl clad instruction panel sets off these handsome warmers. Units come complete with a lighted on-off switch and a 6 ft. lead in cord and plug for easy operation.

### **Versatility**

These attractive warmers may be used in a wide variety of food service applications. Models are available in either all stainless steel body styles or in lighted front panel versions. Lighted models have a selection of attractive colorful signs that can be easily changed without tools.

Select from ladle serve units, portion control pump, or pump with heated spout versions or combination of pump and ladle dispensing to match product and serving requirements. See reverse side for model variations.

Pump models and pump with heated spout versions accommodate a #10 tin or optional SSB stainless steel Star bain marie. Non-pump versions use 4 quart stainless inset with cover or 4 quart stainless inset with hinged cover.

### **Stainless Front**

### **Lighted Front**

### **Lighted w/Pump & Heated Spout**
