3-1/2 - 4 Quart Specialty Warmers

Star Specialty Warmers ... We've Got You Covered

Construction

The handsome corrosion resistant stainless steel body of Star's specialty warmers keep their good looks for years. Units come complete with a lighted on-off switch, attractive black vinyl clad instruction panel and a 6 ft. lead in cord and plug for easy installation.

Performance Features

A powerful 500 watt wrap around heating element provides excellent performance for any foodservice operation. The easy clean stainless steel heat well resists corrosion and provides years of dependable service. An adjustable thermostat provides the proper serving temperature for a wide variety of products.

Versatility

These attractive warmers may be used in a wide variety of food applications. Warmers are available in either all stainless steel body styles or in lighted front panel versions. Lighted units have a selection of attractive colorful signs that are easily changed without tools. Select from ladle serve units, portion control pump, or pump with heated spout versions to match product and serving requirements.

Pump models and pump with heated spout versions accommodate a #10 tin or optional SSB stainless steel Bain Marie (Polar Ware Part #3Y-O). Non-pump versions use 4 quart stainless inset with cover or 4 quart stainless inset with hinged cover.

Lighted Pump Style

Stainless Ladle Style
