Star-Max™ Electric Hot Plates

Model 502A
Model 502FA - French Style

Versatility plus Value with Star-Max Electric Hot Plates from Star...

Features/Benefits:

Model 502A Coil Type

- ★ Convenient lift out drip pan for ease of cleaning.
- ★ Incoloy sheath tubular elements plug in for easy removal and cleaning
- ★ Independent controls for temperature control.

Model 502FA Solid Top (French Style)

- ★ Sealed cast iron type elements provide a solid flat surface for faster, more even heating.
- ★ Solid top prevents spills from entering unit and makes clean-up and maintenance fast and easy.
- ★ Independent controls for temperature control.

Applications:

Need to keep product warm? Star has the answer.

Construction:

The model 502A and 502FA Hot Plates are constructed with quality in mind. Both models feature aluminized steel body and drip pan with stainless steel top and a stainless steel bullnose front to protect the control knobs. The attractive black polycarbonate trim matches other Star-Max™ Griddles, Fryers, and Char-Broilers. The hot plates operate on 208/240 volts and are equipped with a junction box at the rear for making electrical connections. Both units feature infinite controls with 2 pilot lights.

Warranty:

Star-Max™ Electric Hot Plates are covered by Star's one year parts and labor warranty.
