## Star-Max™ Gas Step-Up Hot Plates

Model 602H-SU  
Model 604H-SU  
Model 606H-SU

# Heavy Duty Step-Up Star-Max™ Gas Hot Plates

### Features/Benefits:

- ★ Available in 2, 4 or 6 burner styles in 12", 24" or 36" wide cabinets.
- ★ 22,000 BTU, heavy duty cast iron burners.
- ★ Heavy duty cast iron grates to hold up to everyday use.
- ★ Standing pilot for each burner for sure easy ignition.
- ★ 1/4 turn manual control valve and gas regulator.

### Applications:

Star's Star-Max™ step-up gas hot plates are designed and built with performance and long life in mind. Combine with other Star-Max units; griddles, char-broilers, and fryers, to give you a complete matched line of counter cooking equipment built and designed to perform for many years.

### Construction:

Star's Star-Max™ step-up gas hot plates are designed and built with performance and long life in mind. The welded 16 gauge aluminumized steel frame with stainless steel body will stand up to the most demanding food service application. Because of the stainless body and aluminumized steel drip pan maintenance costs are kept at a minimum.

Like all Star-Max™ units, these gas hot plates feature stainless steel fronts with attractive poly carbonate trim, and a stainless steel bull nose that provides control knob protection.

Units are shipped from the factory for operation on natural gas. Propane gas conversion can be accomplished in the field by changing orifices (supplied with units) and regulator setting.

### Warranty:

Star-Max™ gas hot plates are covered by Star's one year parts and labor warranty.
