

RH-1 and RH-2 Remote Lamp Head Series

Commercial Grade

Remote Lighting Adjustable Heads

Catalog No: _____

Project Name: _____

Fixture Type: _____

Decorative and economical remote heads may be installed alone or with other exit and emergency products designed to operate remote heads. They feature adjustable light heads, modern appearance and low maintenance. Ideal for use in, retail, office, education, hospitality/lodging, institutional, and multiple dwelling applications.

WLX Series Wet Location exit signs feature an enclosure resistant to corrosive atmospheres, non-hazardous dust environments, water spray or splashing water.

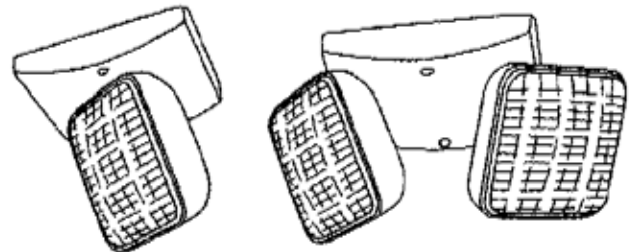

Technical Specifications

- **HOUSING**—Injection molded, V-O flame retardant, high impact, thermoplastic housing on standard units and die-cast aluminum on weatherproof models.
- **ILLUMINATION**—One or two fully adjustable glare-free lighting heads. High performance smooth thermoplastic reflector and polycarbonate lens for optimal light distribution on standard heads. Weatherproof heads utilize heavy-duty prismatic glass lens to withstand UV solar rays. Heads are fully adjustable and rotates.
- **MOUNTING**—Surface mount, fits most standard junction boxes.
- U.L. listed for damp location on standard units and wet location for weatherproof models.

Warranty

1 Year
