10 layers of 12 bottles each (120 total)
Order: 5 ea. #20-4536DSET (Stained)
4'7" H x 47-1/2" W x 11-5/8" D

Australian Radiata Pine and its Monterey legacy

Radiata pine originates from the California Monterey pine tree (*Pinus radiata*). In its native habitat it has little economic importance. In the Southern Hemisphere, Monterey pine (called Radiata pine in Australia... it's Latin name), has been grandly successful especially in Australia. That is where the Modularack® wood is grown and the racks are produced. Through selective and sustainable breeding superior trees with very straight, tall trunks are produced. The result: a hard, high-density, strong wood.

Beware of imitations. Modularack® is the original and the sturdiest system of this type available.

MODULARACK®

MODULAR WOOD WINE RACKS FROM AUSTRALIA

Back to Basics
Just beams and crossbars make up the
fundamental design of Modularack

- Quick and easy assembly using no tools.
- Easily add to your wine racking capacity with the "Suggested Configurations" shown inside.
- Racks can hold standard wine or Champagne bottles.
- Made of environmentally friendly Australian high-density pine.
- Stores wine bottles in preferred position so corks remain moist.
- Designed originally for commercial display racks.

MODULARACK®

Modularack® is one of the strongest and most stable racks available on the market and the secret is in the wood...manufactured from plantation-grown Radiata Pine in Australia. Australia's environmentally sound Radiata Pine is a remarkable cultivated species of tree with its origin in California.

No tools required

It only takes minutes to erect and requires no tools, glue, nails or screws to assemble...pieces simply fit together. There are very tight tolerances between uprights and crossbars giving the racks strong structural stability. Hammering, in fact, should be avoided so as not to disrupt those close tolerances.

Quick-and-easy to assemble.

Here are the two basic components of Modularack®

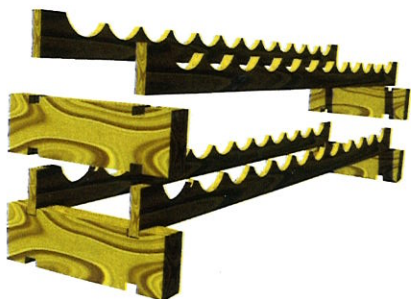

1. SUPPORT BEAMS

("beams") 3-1/2" x 1-3/4" x 11-5/8". These strong beams carry the weight of the system.

2. BOTTLE CROSSBARS

("crossbars") - 3/4" thick stock. These grooved crossbars hold the bottles and come in three lengths: 47-1/2" (12 bottles), 33" (8 bottles) and 26" (6 bottles).

Strong, stable and functional.

Assembly Instructions.

1. Set two beams apart with the grooves facing upward, as shown in the photo below and in the diagram at the bottom of the previous page.
2. Place two crossbars of the length you have chosen and insert them into the beam grooves. Be sure the ends of the crossbars are flush fitted with the beams.
3. Build additional rows by setting two more beams on the top of the crossbars. Then fit another pair of crossbars on top of that. If you stack more than 7 layers high you should consider some stabilizing connections to the wall.

How to order Modularack®...

There are just three basic sets sold. You can purchase as many of these sets as you need to build the size and configuration you want. Some ideas are shown on the reverse side. Each set comes in Natural (unstained) wood or in Dark stained wood.

NOTE: Laser Imprinting available. Suggested location is on the support beam (as shown above), but it can also be located on a bottle crossbar.

Beautiful simplicity for the modern age.

What is a "Basic Set"?

Each set consists of a double-layered wine rack, natural or dark-stained. Each set is individually boxed and contains 4 beams and 4 crossbars with complete instructions. See "Suggested Configurations" for combining units on next page.

TWO LAYERS OF SIX BOTTLES ACROSS SETS (12)

#20-4530SET - Natural
Holds 12 bottles
Two layers of 6 bottles
11" H x 26" W x 11-5/8" D

#20-4530DSET - Stained
Holds 12 bottles
Two layers of 6 bottles
11" H x 26" W x 11-5/8" D

TWO LAYERS OF 8 BOTTLES ACROSS SETS (16)

#20-4532SET - Natural
Holds 16 bottles
Two layers of 8 bottles
11" H x 33" W x 11-5/8" D

#20-4532DSET - Stained
Holds 16 bottles
Two layers of 8 bottles
11" H x 33" W x 11-5/8" D

TWO LAYERS OF 12 BOTTLES ACROSS SETS (24)

#20-4536SET - Natural
Holds 24 bottles
Two layers of 12 bottles
11" H x 47-1/2" W x 11-5/8" D

#20-4536DSET - Stained
Holds 24 bottles
Two layers of 12 bottles
11" H x 47-1/2" W x 11-5/8" D
