Directions

BAKE

Raw dough, do not consume before baking. Let the bag thaw for 12 hours in refrigerator and 30 min at room temperature before use. Preheat oven to 400°F. Once the batter is thawed, cut off the corner of the pouch and pipe the batter into madeleine molds or pan and fill only to 75%, not up to the top. Put in the oven, lower temperature to 380°F and bake for 8-10 minutes, or until the edges are golden brown. When finished baking, remove the madeleines from the oven and cool slightly, then remove from the molds and place on a wire rack to finish cooling.
