Storage
Frozen (-20°F - 0°F -28°C- -18°C)

Additional Handling Instructions

3 GALLON SCOOPABLE TUB HANDLING PROCEDURES
(if using a cold crock see specific instructions for that application)

- Keep frozen at all times. When stored at –20° to 0°F.
- The colder the storage temperature the longer the quality shelf life. Repeated changes in temperatures will cause product to develop a ‘skin’ on the surface, icy texture, & lose the creamy texture.
- Please follow all food safety handling procedures when storing & serving the Scoopable Açaí.
- Always use clean & sanitized utensils & good hygiene practices when scooping.
- Prior to use, temper tub to 5°F +/- 2 for optimal scooping, product quality & performance.
- Recommendation – Set dipping/tempering cabinet to 5°F +/- 2 and place tub in cabinet 24 hours prior to use. Store tub in tempering cabinet for continued use.

PRODUCT SPECIFICATIONS

Org., FFL, Frozen Scoopable Açaí, 3 Ga.

- When placing the tubs inside the dipping cabinet to temper, if multiple tubs are tempering, the time needed to temper & scoop will be longer.
- Once scooped, product can be used to make a smoothie or scooped directly into a bowl for serving.
- Large changes & fluctuations in temperature will result in poor quality product.
- For example, if product is thawed to warmer temperatures than recommended, & put back in frozen storage repeatedly, the product will become very icy & will lose its creamy texture.
- Store product with the lid on as much as possible. If product develops ice or a dry skin on surface, this can be scraped off with a clean scoop prior to serving.
- When lid is off, store lid in a clean, dry area. Alternately, clean wax paper may be used to cover the product (be careful to completely remove prior to scooping).
- Shelf life once tub is tempered is 7-10 days for optimum quality.

Product Certifications

USA NOP Organic, Kosher OUD, Fair trade
