

South African Honeybush (Loose Leaf)

Description:

South African Honeybush (Loose Leaf) is considered the "sister" to [rooibos](#) (red tea), and is similarly high in antioxidants.

Taste:

Davidson's South African Honeybush (Loose Leaf) is a full-bodied, earthy brew with mild, peppery top notes.

Origin:

Davidson's sources its organic rooibos from South Africa. During a recent trip to visit our rooibos farmer, Davidson's co-owner, Kunall Patel, had the opportunity to experience each phase in the rooibos production process. Here he is with a small bundle of fresh honeybush in hand.

Ingredients:

Organic South African honeybush.

Brewing:

1. Bring fresh, filtered water to a boil.
2. Add 2 grams of tea to a infuser, or straight into an 8-oz. mug.
3. Pour the heated water into the mug.
4. Steep for 5-7 minutes.
5. Strain tea leaves, or take out the infuser.
6. Sip and enjoy Davidson's organic tea.
