

GMO-Bioengineered/Gluten Free/Vegan Statement

All peanuts used in our process are gluten free as defined by the U.S. Food and Drug Administration, produced/packaged in a gluten free facility and are solely sourced from the United States of America. These peanuts, as well as, the nut butter/finished goods that we produce are not considered bioengineered/genetically modified or derived from genetically modified organisms.

Our products do not contain, nor do we use any animal or animal-derived materials in our process. No animal or dairy products are used in any part of our manufacturing process. Our products are approved for vegetarian and vegan diets.

If you have any questions regarding this, please let us know.

Best Regards,

Bridget Hagens
