

Brite Glow

**High Performance
Laundry Emulsion**

For Industrial Use Only

Net Contents: 2.5 Gallons - 2/CS

Brite Glow

BRITE GLOW is a super concentrated alkaline, built laundry detergent emulsion containing a combination of non-ionic and anionic soil emulsifying agents, along with water conditioners and fluorescent brighteners. Phosphate free, and safe for use on synthetic and natural fibers. A three phase system with **BRITE GLOW** will give outstanding results, no break needed. Biodegradable, rinses quickly and completely, and effective in all water hardness conditions and temperatures.

DIRECTIONS:

Use with automatic injector systems. **BRITE GLOW** can be dispensed directly from the shipping container, thereby eliminating hand feeding and possible spillage. For normal soils, use 6 to 10 ounces per hundred pounds of work. **BRIGHT GLOW** is completely soluble in normal water temperatures. For optimum soil release, use in hot (140°-160°F) water. Effective soil removal, at the concentrations and temperatures given, may be obtained during a normal 6 to 10 minute wash cycle. If extreme soil conditions exist, a longer or repeat cycle may be necessary.

CAUTION

Contains Sodium Hydroxide. Causes severe chemical burns. Harmful or fatal if swallowed. Eye contact may cause blindness. For additional information, see Safety Data Sheet.

DO NOT MIX WITH ANYTHING BUT WATER.

KEEP OUT OF REACH OF CHILDREN.

FOR INDUSTRIAL USE ONLY.

DANGER

HAZARD STATEMENTS

Causes severe skin burns and eye damage

PRECAUTIONARY STATEMENTS

Prevention: Do not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. **General Advice:** Immediately call a POISON CENTER or doctor/physician. **Eyes:** IF IN EYES: Rinse cautiously with water for several minutes.
