

Memphis & Meghan Bench with Back Assembly Instructions

1. Place the bench seat, seat down on the edge of an elevated, flat surface. The underside of the bench seat will be facing up.
2. Place the frame of the back section so it is resting on the underside of the bench seat. The actual back section will be hanging over the edge.
3. Position the back so that the holes of the back frame align with the holes in the frame on the underside of the seat.

4. Insert a bolt with washer in each hole and hand tighten.

5. When all 4 bolts are in place and hand tightened, finish tightening each bolt using the Hex Key (provided)
