# Welcome to Healthy Air

---

# Setting up your air purifier

**01**

» Open unit fully by pressing latches on both sides.

**02**

» If locked, insert key and rotate counterclockwise  $\frac{1}{4}$ .

### 03

- » Remove bags from filters from both filter chambers.
- » Check that the Velcro on the carbon filter is facing out. Attach pre-filter to the Velcro strips in each corner of the carbon filter. Complete the same steps for both filter set-ups within the AM4 unit.

### 04

- » Arrange filters in proper order. HEPA is placed first in the frame. Carbon on top of HEPA. Pre-filter on top of Carbon, attached in all four corners.

**05**

» Place both assembled filters into the unit – white sticker on top and white pre-filter in front.

**06**

» Close front panel until you hear a click.

# Getting started

**07**

» FLOOR UNITS ONLY: Plug into an outlet and ensure the power switch located at the bottom rear of the unit next to the power cord is switched to the on position. The unit will now be in auto-mode.

**08**

» Once the floor or wall unit is powered up, open front panel to adjust settings.

**09**

» Ionizer will be off by default. Turn the ionizer on by pressing and holding the ionizer icon until it is illuminated.

**10**

» Unit is defaulted to EnviroSmart Auto-mode; icon will be lit blue.

**11**

» OPTIONAL QUIET MODE: Press and hold EnviroSmart Icon until it beeps.

**12**

» EnviroSmart icon will change to purple. Unit is now in quiet mode.

**13**

» MANUAL MODE: Press and hold fan icon until it beeps.

**14**

» You can now manually put the unit in 1-5 fan speeds by repeatedly pressing and holding the fan icon. The light bar to the right indicates which fan speed you are using (1-5).

**15**

» Once settings are complete, close front panel, insert key on the right side and rotate clockwise  $\frac{1}{4}$  turn to lock machine.
