

HOW TO

Install a pump on a SHOTT Bottle

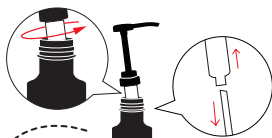

- 1 Remove the lid on the SHOTT 1Ltr bottle (33.8oz)
- 2 With clean hands, open the packet and attach the straw to the pump chamber
- 3 Hold firmly with one hand and unscrew the spout with the other to release
- 4 Still holding the pump, partially submerge the straw into the syrup
- 5 Pump once to fill the chamber and prevent the syrup from overflowing
- 6 Secure the pump to the top of the bottle.

HOW TO Clean a pump

1

Unscrew the pump from the bottle and detach the straw from the pump.

2

Run each part under hot water.

3

Dry thoroughly.

4

Reassemble and screw into the bottle. Pump until the product flows freely again.
