

STEP 1: Lay Side A of drink carrier face down on a flat, sturdy surface.

STEP 2: Place fingers firmly along perforations. Place other hand into bottom of drink carrier and carefully push up to tear along perforations as shown.

STEP 3: Turn drink carrier over so Side B is face down.

STEP 4: Repeat STEP 2.

STEP 5: Push in sides of drink carrier to open as shown.

STEP 6: Sit drink carrier on flat surface. Your drink carrier is ready for use.
