

MODELS

#407FM2

2 Qt. with Standard Sieves
(includes 1.5mm, 2.5mm, and 4mm sieves)

#407FM2XL

2 Qt. with XL Sieves
(includes 3mm, 5mm, and 8mm sieves)

#407FM35

3.5 Qt. with Standard Sieves
(includes 1.5mm, 2.5mm, and 4mm sieves)

#407FM35XL

3.5 Qt. with XL Sieves
(includes 3mm, 5mm, and 8mm sieves)

ASSEMBLY

1. Clean all parts according to instructions below before assembly.
2. Place desired sieve into food mill. There is a notch that will lock the sieve into place.
3. Place food mill handle assembly into the food mill.
4. Insert the food mill handle assembly rod into the hole in the center of the sieve.
5. Attach food mill handle assembly to food mill by hooking bracket onto the hooks on the rim.

CLEANING

1. Disassemble the food mill.
2. Hand wash all food mill components in warm water with a mild soap solution. Avoid using abrasive sponges or rags.
3. Rinse with warm water.
4. Let air dry.

OPERATION

1. Place the food mill on the container that will be used to collect the milled produce.
2. Place cooked fruits or vegetables in the food mill.
3. Crank the food mill handle to press the cooked fruits and vegetables through the sieves into the container.
