

Instructions

1. Check parts list to ensure all parts are included.
2. Set the metal base (E) on a flat, stable surface.
3. Place the metal plate (D) onto the metal base, aligning the bolt through the hole.
4. Place the largest glass shelf (C) on top of the metal plate, aligning the bolt from the metal base through the hole of the glass shelf.
5. Place a plastic washer (B) on top of the glass plate (flat side down), sliding it onto the bolt from the metal base.
6. Screw a metal stabilizing pole (A2) onto the bolt from the metal base.
7. Place a washer (flat side up) through the bolt on the stabilizing pole.
8. Place the next smallest glass shelf on top of the washer, through the bolt of the stabilizing pole.
9. Repeat steps 5-7 for all shelves.
10. Screw the pole with handle (A1) onto the bolt.
11. Assembly complete.

PARTS

- A1. (1) Metal pole with handle
A2. (2) Metal stabilizing poles
B. (5) Plastic washers
C. (3) Glass shelves
D. (1) Metal plate
E. (1) Metal base
