

## Instructions

1. Ensure all parts listed are present.
2. Place the wood base (B1) on top of the glass.
3. Position the metal strainer (C) onto the wood base.
4. Add a small pinch of wood chips (A) onto the strainer.
5. Using a torch, light the wood chips for 10 seconds.
6. Cover the flame with the wood lid (B).
7. Keep the wood lid on for your desired time; a longer duration yields a stronger flavor.  
For a subtle smoky flavor, smoke the serving glass before pouring the cocktail.  
For a more intense flavor, smoke the serving glass with ice before pouring in the cocktail.
8. Remove all components of the smoking kit, leaving only the glass.
9. Serve the cocktail.
