

The Screen Driver Plus from Rhino Coffee Gear is a safe, easy, and efficient tool to help remove and clean your espresso machine shower screen. This new version also includes a brush attachment to transform the screen driver into a group head brushing tool.

Features:

A safe way to remove your shower screen, keeping fingers away from hot machine parts

Ensures an easy shower screen removal and replacement

Suits: La Marzocco, Synesso, Modbar, Slayer, and many more.

Instructions:

Align screen driver with shower screen screw and push up to engage.

Turn counter-clockwise to unscrew.

Clean shower screen.

Load shower screen an screw into screen driver, turn clockwise until tight (do not overtighten).

Connect brush attachment into sreen driver to transform it into a group head brushing tool.

Note: The RHSD-PLUS is designed for shower screens with a dome-head set screw. The RHSD-PLUS brush is not compatible with the RHSD-1.
