

Assembly Instructions

Materials:

- 2 metal rings
- 6 screws
- 3 metal legs
- 6 lock washers
- 6 grommets

Assembly Instructions:

- 1) Start with one metal ring. Push one screw each through each of the three small holes in the ring, threads facing outward.
- 2) Then place the threads of each screw each through one set of holes in the legs, so the ring is in the center of metal legs.
- 3) To secure, attach one lock washer to the end of each screw.
- 4) Twist grommets on the threads of the protruding screws until tightened.
- 5) Repeat steps 1 through 4 with the second metal ring, using the second set of holes on the legs, and remaining grommets, screws, and lock washers.
