

FLAVOUR BLASTER AROMA TANK

QUICK START GUIDE

1 OPEN THE TANK

Slide the lid open to reveal the fill port.

2 FILL

Pour aroma into the tank, leaving a gap at the top. Slide the lid and use the designated section, not the central hole.

A sealed tank with a built in coil, designed for fast aroma changes and consistent results

3 CLOSE

Slide the lid fully shut so it's snug and secure.

4 INSTALL (IF APPLICABLE)

Insert the tank into your Flavour Blaster device until seated firmly.

5 BEGIN

Power on your device and dispense aroma as usual. That's it — no coils or priming needed.

SWITCHING AROMAS FAST!

1. Remove the current tank from the device (if fitted) and close the lid. Store upright.
2. Slide open a fresh tank, fill with the new aroma, and close.
3. Insert the new tank and continue service — no training or coil changes required.

Because the tank has a built in coil, switching is quick, with minimal cross aroma carryover and no priming required.

FLAVOUR BLASTER

AT A GLANCE

- Up to **1,000** serves per tank (usage dependent).
- No coils, no training required.
- Slide open lid for quick filling.

BEFORE YOU START

- Place the tank on a clean, flat surface.
- Have your Flavour Blaster aroma liquid ready.
- Wash and dry your hands.

AFTER SERVICE CARE

- Always store tanks upright with lids fully closed, even during long periods of non-use.
- Wipe exterior with a clean, damp cloth. Do not soak.

SAFETY & GOOD TO KNOW

- Use only official Flavour Blaster aroma liquids.
- Keep away from heat sources and direct sunlight.
- Keep out of reach of children.
- Do not disassemble or use with non food safe liquids.

TROUBLESHOOTING

Weak aroma output

- Check the tank is seated correctly and that the lid is fully closed.
- Ensure there is sufficient liquid.

Leaks or spills

- Keep the tank upright, don't overfill, and reseal the lid.

Unwanted notes between aromas

- Switch to a fresh tank and store the previous one for later use.
