

Tabletop Care & Cleaning Instructions

Daily Cleaning (Granite & Quartz)

Simply mix a mild soap with water. Spray on and wipe off. A minimal amount of liquid with a good amount of elbow grease will give you the best result. Mild sanitizers are okay to use. **Do not use caustic cleaning solutions.**

Care Instructions (Granite Only)

Your local hardware store will carry granite sealer.

Although this is not a necessity, we recommend that you re-seal your granite tabletops every 3-4 months. This is a very simple process and the sealant you purchase will come with instructions. You typically spray on, let sit for 10-15 minutes, and hand buff.
