RE: Product Return Policy

---

ASI Accurate Partitions does not accept product returns or exchanges of our toilet partitions, or any individual components, and hardware. We are a lean manufacturer and as such, these products are manufactured to project specific needs, by color, material, and size, as ordered and approved by our customers.

Once manufactured, they are not applicable to other projects or stock. This policy helps to reduce waste and allows us to offer you, our customer, the most competitive prices in the marketplace. We appreciate your compliance with our stated policy.

Thank you!

Accurate Partitions
