JS012C

Quick and easy assembly

Adjustable within seconds

To take any size of plate

Jackstack International N.V.

The world's fastest & most versatile preparation serving & storage system

Assembly instructions:

- Place the feet vertically and mount both horizontal sheets with indentations up in the respective screw holes with bolts and nuts.
- Fix the screws at the side of the feet so that the telescopic feet can eventually be extended to the rear.
- Fix the uprights in the indentations of the horizontal sheet.

Adjustments:

- The only correct setting is when the plates rest on all four plastic o-rings.

JS012HW

Quick and easy assembly

Adjustable within seconds

To take any size of plate

Jackstack International N.V.

The world's fastest & most versatile preparation serving & storage system

Assembly instructions:

- Find a suitable wall for JS012HW
- Mount the upper wallholder horizontally (use any of them, they are identical)
- Measure 570mm from the upper edge to the fixed wallholder to the upper edge of the lower holder, make a mark and mount it there.
- Hang the upright in the cut that fits your plate and lock them with the little screw.
- When need to adjust to another plate size, unscrew and move the upright.

Adjustments:

- The only correct setting is when the plates rest on all four plastic o-rings. For changing to other plate dimensions, unloose the wing-nut to the section you want to change, adjust uprights accordingly and tighten down the wing-nut again.

JS052F

Quick and easy assembly

Adjustable within seconds

To take any size of plate

Jackstack International N.V.

The world's fastest & most versatile preparation serving & storage system

Assembly instructions:

- A. Take wheelbase and put brakes on the 2 wheels (15cm/6inch) so it will not move during assembling.
- B. Attach one center column (male up) at the middle of crossbar in wheelbase and tighten it with male wingnut.
- C. Lay big crossbar with "JACKSTACK" marking on the male side of center column.
- D. Slide four uprights with the upmarking up between crossbar of wheelbase and the big middle crossbar.
- E. Move the upright in or outside according to the plate size you use and be sure that they hit the same marking at both crossbars.
- F. Tighten the upper wingnut completely and check also the wingnut at the wheelbase. If both are fixed, your JACKSTACK® is ready to serve you.

Adjustments:

- The only correct setting is when the plates rest on all four plastic o-rings. For changing to other plate dimensions, unloose the wing-nut to the section you want to change, adjust uprights accordingly and tighten down the wing-nut again.

HS Code: 73269098
 Tariff No: 9403200020 (US)
