Quick and easy assembly
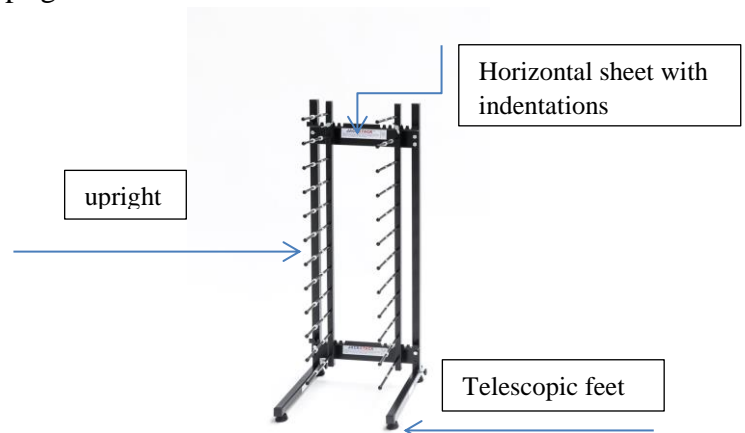

Adjustable within seconds

To take any size of plate

## Jackstack International N.V.

### The world's fastest & most versatile preparation serving & storage system

**Assembly instructions:**

- Place the feet vertically and mount four horizontal sheets with indentations up in the respective screwholes with bolts and nuts.
- Fix the screws at the side of the feet so that the telescopic feet can eventually be extended to the rear.
- Fix the 4 uprights in the indentations of the horizontal sheets.

Horizontal sheet with indentations

upright

Telescopic feet

**Adjustments:**

- The only correct setting is when the plates rest on all four plastic o-rings.

-
