

## Stainless Steel Braided Flexible Water Connectors

Burst-free, lead-free, and hassle-free water supplies for all plumbing connections. (Faucet, Toilet, dishwasher, washing machine, ice maker)

### CAUTION & WARNING

- You must read and fully understand installation instruction and warnings before the installation of Easyflex braided water connectors.
- Failure to follow this instructions may cause improper operation resulting in leak, personal injury or property damage.
- Never use braided water connectors for gas connection.
- Easyflex braided water connectors are designed to be used only accessible locations and not for underground usage.

1. Turn off water supply at shut-off valve.
2. Check the rubber washer is installed in each nut of each side of connector.
3. Thread the connector nut onto the shut-off valve.
4. Thread the other nut of connector to faucet inlet (or appliance inlet)
5. After hand-tight, use wrench to tighten 1/2 extra turn.

- DO NOT overtighten.
- For plastic nut, hand-tighten only.
- DO NOT clean with or expose to cleaning solvent containing ammonia or chlorine.

6. Slowly turn on shut-off valve.  
Check for leaks at each nuts before using faucet or appliances.
