PROTARP™

Tarp Features

FINISHED SIZE

Tarpco Safety's sizing for the tarps are finished size which means when you choose your size you get the full size tarps and it's not short a few inches from both sides like other companies.

100% VIRGIN POLYETHYLENE

Most tarps are made with recycled or mixed materials. Tarpco Safety, on the other hand, uses pure, virgin, non-recycled polyethylene, that's why our multipurpose tarp is super durable and won't tear, rip or rot. Tarpco Safety's heavy duty poly tarp is built to last.

STRONG GROMMETS & REINFORCED EDGES

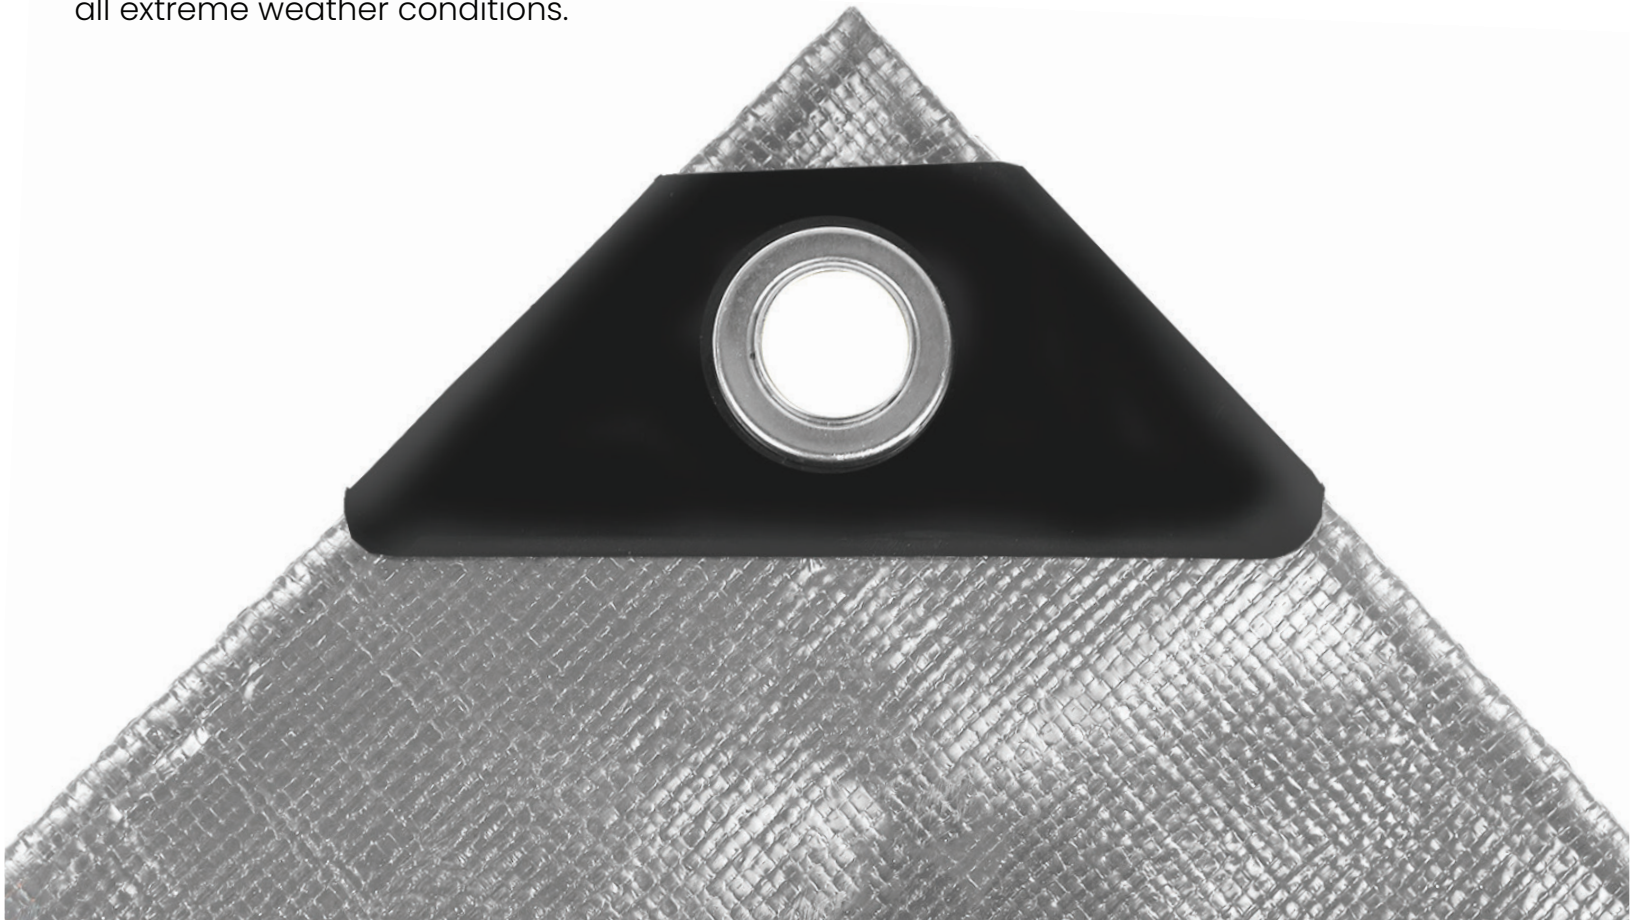

The protective tarp has reinforced edges and metal grommets very close. The tear-resistant material is super durable while the metal grommets allow you to tie down the tarpaulin cover easily, using bungee cords or a strong rope.

CONVENIENT MULTIPURPOSE DESIGN

You can use this plastic tarp sheet to cover many different kinds of objects, like roofs, boats, pools, outdoor furniture, or you can use it to make canopy tents, go camping, cover the floors when you paint, and much more.

UV RESISTANT, WATERPROOF AND WEATHERPROOF:

You can use the ultra-thick tarp throughout the entire year, whether it's windy, raining, snowing or raining. The premium poly tarp is weatherproof, waterproof and UV resistant and it will protect any object from all extreme weather conditions.
