

The Perfect Stainless Steel Wall Base.

Highest Quality Materials And Workmanship

Our 18-Gauge Type 304 Stainless Steel is manufactured, processed and polished in the USA. It provides excellent protection, and easy maintenance. The heavy duty stainless steel is easy to cut and fit in the field and is suitable for most applications, design and function.

Wall base arrives to you wrapped in fully protective packaging to

prevent damage during shipping and a vinyl protective film on the finished side which is removed after installation.

Customer Service Support is available on every order and Inquiry — we answer phone calls, emails and live chats from 9AM-5PM Eastern Standard Time: **239-244-2365 • sales@stainlessbase.com**
