

Omni ID Counterfeit Detector

- Verify the authenticity of ID cards, passports, credit cards and more with Cassida's UV LED identification verification lights.
- Confirm the authenticity of a bill in seconds with a clear "PASS" or "FAIL" indication.
- Uses advanced technology to scan money and cross-check with a comprehensive database of ultraviolet, magnetic and infrared markings to ensure authenticity.
- Check for authenticity marks on identification cards with UV LED lights that are effective in any lighting conditions.
