

## Quatro All Orientation Counterfeit Detector

- **Powered by the M Algorithm™:** The Quattro™ utilizes Cassida's patented M Algorithm™ for industry-leading counterfeit detection with the lowest "false reject" rate.
- **Any Orientation Recognition:** The Quattro™ allows for easy authentication of bills in any orientation for the simplest operation of any counterfeit detector.
- **Counterfeit Shield Guarantee:** Cassida's "Counterfeit Shield Guarantee" ensures reimbursement for any counterfeit bills accepted as genuine within 72 hours.
- **Compact, Durable and Portable:** Included with a rechargeable battery you can easily take the Quattro™ anywhere counterfeit detection may be needed.
- **High Resolution Display:** Easy-to-read digital display that clearly reports the results and denomination of checked bills for added security.
